WE'RE MORE THAN IT.

- Advanced statistical methods
- Experimental design & implementation
- Scientific programming/bioinformatics
- Biostatistical analysis
- Scientific publication preparation
- Robotic process and intelligent automation technologies
- DevSecOps and continuous integration/deployment (CI/CD)
- Agile-based application development
- Automated quality assurance & testing
- Enterprise architecture
- Strategic alignment
- Analytics-based decision support
- Management reform/change management
- Governance
- Data visualization
- Agile PMO
- IT service desk (tiers 1, 2, 3)
- User authentication & authorization
- Database administration
- IT asset management
- Service and change management (ITIL v3)

Core Competencies

Techniques & Technology

- Big data, Monte Carlo and simulation studies, generalized linear modeling, univariate/multivariate analyses, predictive analytics, survival and proportional hazards analyses
- Creative user experience and user interface design, prototyping, and optimization
- Proven and certified service provider of leading robotic process automation platforms
- Service-oriented architecture
- Systems analysis and design

Concepts & Leadership

- Mission-focused transformations and enterprise transition
- Curriculum and end-user technical training
- Governance, management, and actionable architectures
- Automation-first process improvement

Operations

- Highly scalable, customer-oriented IT infrastructure
- Mature operations management processes
- Continuity, disaster recovery, FEMA emergency processes, incident response and remediation
- Federal regulatory compliance, NIST 800 series, C&A/RMF
- System security planning

Supporting Science. Empowering Research.

Over the past 40 years of supporting researchers, DMS has developed a great depth of knowledge and a deep appreciation for biomedical and public-health missions. We are proud that our information technology services and expertise in applied information sciences is helping to reduce the pain and suffering related to cancer, HIV/AIDS, and other infectious diseases.

Ask us about statistically significant results, big data, predictive analytics, modeling, publication, and more.

Applied Information Sciences
Advanced statistical and mathematical methods, experimental design and implementation, scientific programming/bioinformatics, and preparation for publication

Applications
Methodology & transformation, DevSecOps, application development, cloud migration, and quality assurance & testing (QAT)

Advisory
Strategy; roadmap; enterprise architecture; management reform; change management & training; governance; and portfolio, program, and project management

Optimization
Business process management, intelligent automation (including robotic process automation), and business analytics

Operations
Infrastructure management, information security and assurance, information exchange, electronic records, device management, and migration/modernization

Prime Contract Vehicles
GSA Multiple Award Schedule (MAS), *GS-35F-0490W*
FDIC IT Strategy and Business Solutions Support (SBSS) Basic Ordering Agreement

Other Contract Vehicles
FBI Information Technology Supplies and Support Services (ITSSS) IDIQ
DHS Services for Enabling Agile Delivery (SEAD) Blanket Purchase Agreement
DHS Architecture, Development, and Platform Technical Services (ADaPTS) BPA
